PERMANENT GRADES.

Council is to be congratulated upon the enactment of a finance sheet which makes provision for continuing and assuring the completion of the new and permanent grade and extension work on several important city thoroughiares.

page and extension work on sectal his portant city thoroughtares.

ao long as the grades of its main inconginfares are steep, ortuous and the widths counstricted and unfavorable to the free flow of
traffic.

Council has taken cognizance of this
principle. The Whitehall street improvement, one of the most importance
list, is cared for With the provention of the protect
list, is cared for With the provention of the protect
list, is cared for With the province of the most of
list, is cared to province the commons adminage that accrues to death boulevard.
The other appeals of the enormous adownings that accrues to outlying districts
on the south side in endopring quicker and
sasier access to the city via Whitehall.

The other improvements are all of a
part in their relative bearing upon the welfare and evolution of the city. Spring street,
which is absolutely indispensable to providing facilities for lightening the dangerous
load on Peachtree, and for giving a city and
county air-line from Five Points to Buckhead, will become a thoroughfare of countywide importance. Along with Spring goes
logically the widening of the Peachtree
bottle neck", giving to traffic at a strategic
point a wide and straight entry into the
most heavily landen streets of the city.

The other south and north side street
improvements rank proportionately with
Whitehall, Spring and Peachtree, not forgetting the important continuation of the work
on West Peachtree.

The most eignificant feature of the sheet
is that tit ays down the precedent that as
fants and far as possible the city will remodel
interest to conform to permanently established grades. There should be no more
published grades. There should be no more strendium as in the past for work that may
have to be done all over again, and there
should be no pathwork compromise of big
plos the permanent completion of which
may cast double the amount if postponed.

All these reasons combine to endow the
principles back of the present finance sheet
with an importance almost epochal.

With the establishment of the parcel post we are getting better service foday from the parcel post than if the express companies were not in the stadd better than ever in its history. Competition does it.

It is argued by some that the postal service should not have competition, and that no government activity really offers elastic and effective competition. But the fact remains that since the establishment of the parcel post the customers of this class of transportation have been getting better, service than at any time in the history of this competition. These new rates are even lower when applied to food products. They will help the farmer find new markets—and help the housewife lower the living cost.

Express service from now on must become a factor of steadily increasing importance in the business life of the nation.

The new rates spell opportunity for you. Whether producer or consumer you need the express service and will find profit in its use. You can speed your deliveries, widen your market, buy where costs are

New Taffeta Dresses \$19.75

The Spring season says it is to be taffeta. We say that it shall also be good taffeta, guaranteed—even unto the dresses for which you pay only \$19.75.

We guarantee the taffeta in these dresses, as in all taffeta dresses that we sell.

Seeing these that today are offered you at this price will convince you that they have a much greater value. In fact, some of them are earlier \$25.00 styles.

Have your choice of these pictured styles and many more, in taffeta, black, blue, green and brown, and a few printed patterns in "Pussy-Willow" and other novelty silks.

Every dress is a beauty-every design a choice one. The one price is
